SCIENCE WINS!

A Splendid Surgical Operation—Successful Result and Wonderful Recovery.

SURGICAL OPERATION.—The operation of lithotomy (removal of stone from the bladder), one of the most severe and critical operations known to the science of surgery, was successfully performed on Tuesday upon Mr. Henry H. Pitts, a merchant of this city, by Dr. David Kennedy. Several friends of the patient witnessed the operation. Mr. Pitts has suffered several years from this difficulty, but it was only a week before the operation that he was made aware of the real cause of his complaint.

RECOVERY.—Mr. Henry H. Pitts has recovered from the effects incident to the operation, the closing of the wound being completed on the 18th day. His general health is good—better than it has been for years, while he is perfectly free from all those distressing symptoms so characteristic of the disease with which he suffered. Had this and similar cases used Dr. Kennedy's "Favorite Remedy" in the early stages of the complaint, the formation of stone would have been prevented. "Favorite Remedy" also purifies the blood, cures Constipation of the Bowels, and all those diseases and weaknesses peculiar to Females. This wonderful medicine is now for sale by all our druggists, $1 a bottle.

SUNDAY BARBERING.
Shaving 10 Cents.
After this date my Barber Shop on Harlow Street will be open Sundays, and I shall be found at my chair prepared to attend to the wants of my customers, and to prove to my patrons that I am not actuated by pecuniary motives I shall adhere to my regular week day prices and make no extra charges for Sunday work.
I take this occasion to say to my friends and the general public, that, in common with a large majority of the barbers of this city, I believe that we need Sunday or a day of rest and therefore I was one of the number who closed their shops on Sunday, but having been thwarted in that project by the *persistent efforts of a certain broker* and the *decision of our worthy County Attorney* I feel myself obliged to keep open on Sunday in order to extend as full an accommodation to my customers as others of our profession, and to retain my week day business.

STATE NEWS.

Cumberland.

An old man, giving the name of Alexander Robertson who has been boarding for a few weeks at the American House, Portland, lately took a tenement and after depositing a check for $1000, drawn at New York against himself with the Mechanics Bank, bought goods in small quantities of several dealers, and borrowed small sums of money. The bank paid out no money but sent the check to New York and it was returned dishonored. Then the parties wanted their money or goods, but the white haired swindler had departed. He got about $60.

Knox.

Mr. Henry Ulmer, engineer of steamer Hurricane, while at work hoisting ore out of the wrecked schooner Addie Ryarson, at White Head, Sunday, had the end of his little fingers taken off, and the hand badly bruised, by getting it caught between the rope and cylinder.

"Arise, daughter, and go to thy daughter, for thy daughter's daughter has a daughter." It is a very rare occurrence when a woman has an opportunity of using this old and curious expression, as did Mrs. Jane Dinsmore, of Thomaston, the mother of Francis and Ambrose Cobb of Rockland. It encompasses five generations of females, and these were gathered in Thomaston, the other day. There was Mrs. Dinsmore, bright and vigorous at the age of 91, Mrs. George Walace, her oldest daughter, Mrs. Charlotte Havener, her grand-daughter, Mrs Clara Wilson (*nee* Havener,) her great grand-daughter, and Mrs. Wilson's infant child, her great great-grand-daughter—five generations. It is only once in a life time that one hears of such a remarkable event.—*Courier.*

Capt. Emerson, late master of the ship Kendrick Fish, has returned home from Breman, where he sold this ship for £6500. The Kendrick Fish was built by Samuel Watts & Co., at Thomaston, in 1867, over hauled in 1879, and was a good vessel of her class.

Mrs. Joseph Wooster, one of the oldest citizens, of North Haven, died on Wednesday, of last week at the advanced age of 85 years. He suffered but a short illness, which was brought on by taking a sudden cold.

Lincoln.

Early on the morning of Nov. 15th, the dwelling house of Mr. C. M. Sawyer at Alna, was discovered to be on fire. The alarm was given, but before assistance arrived the flames had made such headway that the house could not be saved. A large shed attached to the barn, however, was not burned. The furniture was about all saved. Insurance on buildings $100. The greatest loss to Mr. Sawyer was having fourteen hundred dollars in bank bills burned, the money unfortunately being near where the fire first caught and could not possibly be secured. Fire is supposed to have caught from the chimney.

A horse belonging to Geo. W. Billings, of the northwest part of West Jefferson, came to his end in a somewhat singular manner a few days ago. He was let loose to drink and on returning stopped to roll, when his head in some manner got under his body breaking his neck short off. This makes three horses Mr. Billings has lost since last April.

Sagadahoc.

Messrs. Goss & Sawyer, of Bath, have got the frame up for a big three-masted center-board schooner, which they are to build for Capt. Peter Kennedy, of Rockland.

Somerset.

The *Reporter* says that for the past few days the frequent rains have swelled the river with a sufficient amount of water to enable the Kennebec Log Driving Company to drive the logs from Carratunk Falls down into the booms below Skowhegan. It is estimated that twenty million feet of logs were left in the Kennebec this season on account of there not being a sufficient amount of water to drive them into the booms. It now looks as if there might be a much larger cut of lumber the coming winter than before, for quite a number of years.

York

Barak Maxwell, of Ogunquit, has sold his steam saw mill to J. M. Buffum, of Lynn, Mass. The workmen are busily engaged in removing it. The boiler will be taken to Boston and exchanged for a larger one to be used in Lynn.

PROPAGATING GERMAN CARP.

WHAT THE FISH COMMISSION HAS DONE WITH THIS FOOD FISH—DISTRIBUTING THEM LIBERALLY THROUGHOUT THE COUNTRY.

Less than four years ago the first successful attempt to introduce the German carp into this country was made under the auspices of the United States Fish Commission, by Dr. E. R. Hessel. About 130 of the fish were living when the consignment reached this country and all the German carp now in the United States are the progeny of this small number. Within a year Prof. Baird has distributed throughout the country about 30,000 of these valuable food fishes. The water in the carp ponds in Washington has been drawn off this week, and it is found that about 100,000 fish can now be distributed. One thousand have lately been sent to the stock ponds in Tennessee, and 5,000 were shipped to Kentucky last week for the same purpose.

A great many of the fish sent to different parts of the country have been shipped to individuals (fifteen or twenty to each) who have ponds and desire to stock them. About one-half of those recently sent to Tennessee were to supply the demands of individuals. An evidence of the general demand for carp is the fact that there are now on file in the office of the Fish Commission some 3,000 applications. It is understood that hereafter when carp are to be sent to a State where there is a State Fish Commission, it will be expected that that commission will receive them here and transport them to the places where they are to be placed for the purposes of breeding. The States which have thus far been supplied with carp, either fully or in part, are New York, Pennsylvania, Illinois, Ohio, Missouri, Minnesota, Wisconsin, Michigan, Connecticut, Tennessee, Georgia, Texas and Mississippi.

The carp do not breed until three or four years of age, but like all other fish their fecundity is very great, and after they arrive at the breeding ages the 130,000 which will have been distributed throughout the country before the end of this year will multiply in such a ratio as soon to add materially to the food supply of the people. Professor Baird estimates that one pair of breeding carp is sufficient to stock an acre of water, and that the spawn from a single fish will produce from 5,000 to 10,000 young fish. These make a very rapid growth during the first three or four years, frequently reaching a weight of ten to fifteen pounds in that time.

As a matter of practical interest to those who desire to start carp ponds, it may be mentioned that all applications to the Fish Commission should show date, name of the applicant, Post Office address, situation of the pond nearest the railroad station, name of railroad, area of pond, character of bottom, and what other fish, if any, the pond contains. The area of the breeding ponds in Washington will be extended next spring by eight acres.

STATE OF MAINE.

By the Governor

A PROCLAMATION.

By the advice of the Executive Council I do hereby appoint

Thursday, the Twenty-fifth Day of November, Instant,

As a day of Public Thanksgiving and Praise to our Father in Heaven for His kind care over the people of this State in the year that is now closing. Living under one common Government, that is good and strong enough to protect every citizen in the full enjoyment of all his rights, it is befitting that we should unite with our fellow countrymen upon that day at the invitation of the President of the United States in solemn acknowledgement of the goodness of God wherewith our State and Nation have been so abundantly blest. May the hearts of our people be moved to give earnest thanks that peace and plenty, health and prosperity prevail throughout all our borders, and that the principles of liberty, established by the Fathers who gave us this Republic, grow stronger as the years of the Republic go by.

Given at the Council Chamber at Augusta this fifteenth day of November in the year of our Lord one thousand eight hundred and eighty, and of the Independence of the United States of America the one hundred and fifth.

DANIEL F DAVIS

By the Governor
S J CHADBOURNE, Secretary of State

GRANT AT MENTOR

Hon John M Francis of the Troy *Times* after a recent visit to Mentor gave the following account of the visit made by Gen Grant and Senator Conkling upon General Garfield which has been the subject of so much silly talk

It is amusing to one who was present when Gen Grant and Senators Conkling and Logan visited Gen Garfield at Mentor last September to read about the treaty or bargain of any kind between the eminent gentlemen named Mr Cameron was not there at the time though he had previously called upon Gen Garfield Gen Grant, Mr Conkling and Mr Logan after the meeting at Warren stopped over about an hour at Mentor while en route to Cleveland from the former place

They were met at the porch of his house by Gen Garfield, who gave them a warm welcome and escorted them to a room in the second story where all the visitors laid aside their overcoats and hats Next they repaired to the family sitting room where they were introduced to Mrs Garfield and the venerable mother of the President elect A few minutes of social conversation ensued General Grant conversed with a deference almost reverential with the elder Mrs Garfield, Senator Conkling spoke a few words with Mrs Garfield, the younger and the lady being called away to attend to some matter connected with the reception of her husband's guests the Senator fell into conversation with the little daughter of his host Senator Logan talked with everybody principally an old army friend who happened to be present Gen Garfield busied himself with the duties imposed upon him by the visit speaking a word with this one and then with that one and once or twice he ran out to see that the lunch that was being prepared was ready In the course of about ten minutes the repast was announced and Gen and Mrs Garfield escorted their visitors to the dining room

Here a general conversation ensued Gen Grant doing a large share of the talking When the lunch was finished the company returned to the sitting room where Gen Grant and Mr Conkling held an informal reception of the villagers who had learned of their presence and came to pay their respects to them Afterward Gen Grant Mr Conkling and Gen Logan were led one by one by Gen Garfield to the piazza and introduced to the Garfield club of Mentor, who were drawn up in line in front of the house

Immediately afterward the gentlemen repaired to the room in the second story, donned their overcoats and hats, and entering carriages were driven hurriedly in the midst of a furious storm of rain sleet and wind to the depot whence they took cars for Cleveland This was all there was of the conference at Mentor between Gen Garfield and his distinguished visitors

Gov Williams of Indiana, who has been extremely ill for several days at Indianapolis died on Saturday afternoon at 1 10 o'clock Gov Williams was born in Pickaway county O, January 16 1808 and removed to Indiana in 1818 He was educated in a log school house was a farmer by occupation served in the Indiana legislature for five terms in the House and three in the State Senate ran for U S Senate in 1863 against Oliver P Morton, who defeated him was a member of the 44th Congress and resigned to accept the office of Governor of Indiana, to which he had been elected He was a Democrat in politics

Assistant Secretary of State Hay says that Consul General Heap at Constantinople has accomplished in the case of Dr Parsons murderers what the representative of no other government could do simply because the Turkish government has a hearty respect for the United States He has secured the arrest conviction and sentence of the assassins while all the great powers together have not been able to accomplish the arrest of the assassin of the late secretary of the Russian legation The hesitation to execute sentence upon the murderers of Dr Parsons is due to the Porte's fear of his own subjects, but it is believed that Mr Heap will soon be as successful in securing their punishment as in his previous efforts

General Schofield's annual report, says the *Independent* proves that he is not a fit man to be at the head of West Point Academy He does not represent civilization but barbarism Harvard and Yale stand at the head of our universities At both of these institutions colored students sit by the side of white in recitations and at Harvard where the public mess system prevails at meals There is no special proscription at either place The prejudice is, to this extent already conquered at our best schools —

If we may be permitted an opinion, it is that the President couldn't do a better thing than to send Schofield out to fight the Indians and put in his place at West Point a man who has taken some part in the progress of ideas during the last thirty years It is very important that the army officer of the future should have a chance to see a little of the light of the new dispensation with regard to the colored race —*Lewiston Journal*

Gen Garfield observed his 49th birthday on Friday as has been his custom for years by paying a visit with his wife to his uncle Thomas Garfield, at Warrensville O who is 79 years old, and whose birthday falls upon the same date The reunion was purely informal A family party of about 60 relatives and immediate friends were present In the evening he went home to Mentor

A correspondent of the Newburyport *Herald* says that notwithstanding the losses she has sustained, Maggie Mitchell is probably worth more than two hundred thousand dollars She has hosts of friends who will be glad to hear this

In a speech at Birmingham, John Bright said that the remedy for the state of affairs in Ireland would be a plan giving tenants security in the possession of their farms and protection against a constant increase of rent.

WEST POINT AND WHITTAKER.

[From the N Y Tribune.]

General Schofield at West Point has sent in his annual report, in which he has at last found an opportunity to free his mind by a good hearty scold on the Whittaker case It is late, but the General's state of mind is just as hot as it was at first, and he evidently labors under the impression that West Point still fills the public eye, and that the Nation still waits breathless to know what he thinks of Whittaker and the social status of the negro The reproof which he proceeds to administer to the country, as to temper and tone, is pretty much like that which an irritated old woman at the head of a children's school would give to her prankish pupils After he has laid down the law as to what public opinion should be, he proceeds loftily to hint, in spite of public opinion, that he and the other officers in charge will make the place still hotter for the colored cadets in future and to display a vulgar and insubordinate insolence to his superior, the Secretary of War, by alluding to him contemptuously as "the Superintendent of the War Department, who may hereafter as heretofore show undue kindness to an unworthy cadet for no better reason than that he is colored."

It is a pity that General Schofield had not a prudent friend who could check him before he again called public attention to the deficiencies of our Military Academy and its officers He does not seem to know that West Point as well as Whittaker was on trial and that while the guilt of the colored boy was at worst not proved, there was but one opinion among well-bred right feeling people as to the training which the cadets were receiving Whether Whittaker slit his ears or not did not alter the fact that the lad had been subjected to a course of cowardly ill treatment precisely the reverse of that which we look for from soldiers and gentlemen to those weaker and less fortunate than themselves This is the treatment which General Schofield tells us has been too courteous and lenient to the "recent slaves"

It would probably be unreasonable however to expect a change in a matter of feeling or breeding "Each after his kind" says the old saw, "the roar to the lion the bray to the ass" But a man who has managed to obtain such a position as that of General Schofield should have intelligence enough to know [illegible] the facts of the position The Academy is not an exclusive select school to which aristocratic young gentlemen are sent at large cost by their parents, in order to keep them free from vulgar association, nor is the General the head master of such a school, whose duty is to guard them from such perils The school is paid for out of the pockets of the citizens (both white and black) that the recruits (both white and black) should be taught to stand as soldiers shoulder to shoulder if need be. General Schofield's salary is paid in part, by the "recent slaves," and the white pupils eat the food and wear the clothes which black men are taxed to furnish These considerations are bitter but should be salutary in their effect

The Superintendent of West Point evidently misapprehends his position The habit of commanding the cadets has led him to forget that it is not his place to command outside but to obey the will of the public The American people have that big patient good humor which belongs to strength and sound sense but they have been sorely tried of late by the vaporing and inefficiency of this institution General Schofield would be wise to keep himself and his school in the background if he wishes no change in either

POLITICAL NOTES

Ex Senator Stanley Matthews says he thinks Secretary Sherman will win in the Ohio Senatorial fight, and he is himself in favor of him

A barber at Kensington, Conn, from whom some Democrats took away custom after election because he voted the Republican ticket says he has made a careful count and finds a net Republican gain of eight cups

There are numerous arrests at the South for election frauds

Politicians high in the counsels of the Republican party who have reached here from New York some of whom have recently been at Mentor say that it is definitely settled that there will be an entirely new Cabinet but it is not certain that some of the present Cabinet will not be provided with other places Carl Schurz for instance, is assigned by the gossips to the German mission.—*Washington Special to Boston Journal*

A Washington despatch says It is said the Democrats intend to take advantage of a technicality with regard to the vacancy in the United States Senate made by the election of Gen Garfield to the presidency and, for a time at least, to leave Ohio with but one Representative in the Senate

In my judgment there is no paper so utterly unfair, malicious and devilish as the one that claims to be neutral No politician is as bitter as a neutral politician Neutrality is generally used as a mask to hide unusual bitterness Sometimes it hides what it is—nothing It always stands for hollowness of head or bitterness of heart—sometimes for both —*Robert G Ingersoll*

Of the 291 members of the next House all but 90 have served in that body before

James D Pugh the next Democratic Senator from Alabama, was born in Georgia in 1820 He was elected to the Thirty-sixth Congress as a Democrat, and served until his State seceded from the Union He was then a member of the Confederate Congress during the war

The "shoe string" district ought to be changed to the hemp-string district, and Chalmers ought to be fastened at one end of the string, with the other end over the limb of a tree —*Lowell Courier*

Just when the Northern Democrats are denouncing each other for treachery, prominent members of the party denounce them as being utterly devoid of principle

Gen Hancock's official majority in Alabama is 34 160 less than that declared for Cobb the Democratic candidate for Governor in August

There are a great many skilful engineers on our railways but we never knew one yet who could kick his train around a curve with the grace and success with which a first-class actress can perform the operation

A St Louis doctor lifts up his voice and weeps because another prop is taken from the value of circumstantial evidence in murder trials This individual, Charles O Curtman by name experimented with mosquitoes and bed bugs till he proved to his own complete satisfaction that human blood corpuscles are unchanged and easy recognizable for days after the insects mentioned have imbibed the blood He anticipates that a leading argument for the defence in the murder trial of the future will be that the alleged human blood stains were caused by the murder of a mosquito But Dr Curtman needn't be awake nights over the possibilities of guilty men escaping by the aid of his discovery.

Rev George F Pentecost, the Baptist Evangelist of Boston, who has been engaged in revival work in Yonkers for the past two months, is to be called to the pulpit of the Tompkins-avenue Congregational Church, Brooklin. A meeting of the church and society the other evening, it was unanimously voted to give the call, and offer Mr Pentecost $5000 salary and six weeks' vacation It is understood that Mr. Pentecost will accept and return to settled ministerial work, which he left three years ago

If a man wishes to be thoroughly comfortable in his own coffin he must plant the tree from which that article is made At least that was the conviction of Captain Stone who arrived at Moundville West Virginia thirty five years ago, to make his home, and planted two seeds remarking to his family that he would like to raise his own coffin One of the seeds died, but the other flourished and grew From a shoot it became a sapling, and finally, in the course of thirty years, a fine tree About eighteen months ago a severe wind storm prostrated the tree He had it cut into lumber and sent to a Pittsburg firm In a short time it was returned to him in the shape of a beautiful coffin About two weeks ago he was laid away in the coffin which he planted thirty five years ago

A very singular book has just been published in Germany It purports to be written by a lady to whom old King Leopold of Belgium was married secretly about 1817 on the condition that if he were called to a throne, the marriage should be considered null and void To this the lady consented, but she now not only discloses the fact but gives a detailed account of the transaction and of her married life with Leopold

Mrs William Graves, of North Amherst Mass attempted suicide Friday morning by placing herself on the track in front of a freight train The cow catcher struck her upon the head tearing off the scalp and baring the bones of the skull Strange to say she was able unassisted to walk to her home at some little distance from the track and was found upon the doorsteps some time later by her friend The physician who was called pronounced her in a very critical condition No cause for the act is known

The Baptist Weekly remarks with considerable subtlety that the brethren who have been able to attend political meetings gaze at torchlight processions and do considerable shouting besides cannot consistently plead the risks of night air as an excuse for absence from prayer meetings

A stranger in Galveston asked an old resident how malarial fever could be distinguished from yellow fever "As a general thing" was the reply "you can't tell until you have tried it If you are alive, then it is most likely yellow fever"

MAINE NEWS.

Narrow-gauge Railroad to the Kennebec.

GARDINER, Nov. 20. The projected extension of the Sandy River narrow-gauge Railroad from Farmington to the Kennebec, is being rapidly pushed forward, and it is thought will be a success. A surveyor now employed will map out the probable route and an endeavor will be made to raise a portion of the amount in Boston. The estimated cost is about $250,000. If the proposed extension is a success an endeavor will be made to extend it to Phillips and Rangely Lakes.

Fire in North Yarmouth.

PORTLAND, Nov. 20th. John Staples' steam saw mill, grist mill and threshing mill at Walnut Hill, North Yarmouth, was burned last night. Loss $3,000 to $4,000; insured $400 in the Revere, and $1,500 in the New Hampshire.

THE MINNESOTA HORROR.

Missing Patients Not Yet Heard From.

The List of the Dead Will Probably Reach Thirty-two.

CHICAGO, Ill., Nov. 20. A St. Paul Mail special from St. Peter says: The remains of the six unidentified victims of the Insane Asylum fire will be buried to-day. No more missing patients have reported, and it is feared that all those reported missing are dead. The correspondent telegraphs: I think there can be no further doubt that Columbus McCullom, William Callipsie, J. E. Clench, Amos C Alby, Carl Konshumor, J. E. G. Feller, F. Larson, Wm Fitz Ross, P. E. Fahey, Marcelle Goggna, Hans Anderson, Henry Dickman, Andy McKay, E. D. Gordon, Andrew Uzen, Lenore Dube, Edward Mahoney, Daniel O'Brien and Patrick Clancey perished in the flames. No one has heard a word from any of them since the fire. The officers of the asylum have about concluded that they will never be heard from. This brings the list of dead up to 32. It is possible that three or four of the missing patients may be found somewhere in this county, but it is not very probable. Notwithstanding the fact that J. C. Bren was reported to have been seen alive on the track after the fire, the officers of the asylum have grave fears that he is among the dead.

THE INTERNATIONAL REGATTA.

LAYCOCK THE WINNER.

ROSS COMES IN SECOND.

LONDON, Nov. 20. Laycock won, Ross came in second, Hosmer third, and Smith fourth.

3 P. M.—Laycock, the Australian, won the final heat in the international regatta to-day, carrying off the first prize of £500 ($500). Ross was second, winning £200. Hosmer third, winning £160; and Smith fourth, winning £40.

Hosmer had the Surrey shore station; Ross was next, then Laycock, with Smith on the Middlesex side. The weather was clear but cold.

Ross got the best of the start, but was almost immediately passed by Smith, who however, retained his advantage only for a very short distance, Ross again passing him and apparently leading easily. Before Hammersmith bridge was reached Laycock and Hosmer had both passed Smith, who passed the bridge six lengths in the rear of the three others, who were at that time about on a level, Ross, if anything having the advantage. At the Doves Ross quickened his pace and gained about a length from Hosmer, who was also spurting and left Laycock half a length behind.

After passing the corner Laycock drew up and overhauled Hosmer and Ross. It was a magnificent race to Eyot, above which a foul occurred. Laycock passed Barnes bridge three lengths in front of the others. The attendance was large. The water was quite still. Laycock's victory, which is enthusiastically received, is attributed to his superior condition.

Ross held up his hand to claim a foul, but afterward seemed only to try for the second place. He claimed the race on an alleged foul, but the umpire refused to allow the claim.

NEW HAMPSHIRE.

Probable Murder at Great Falls.

GREAT FALLS, N. H., Nov. 20. Three young men entered the bar room of the Somersworth House, last night, about 11 o'clock, ordered drinks and refused to pay for them, whereupon the barkeeper (Sanborn) reached over the bar and slapped one of them named Knox, in the face. Knox instantly drew a revolver and shot Sanborn in the lungs. The wound is a very dangerous one. The bullet has not been removed, and probably cannot be disturbed without a fatal result. Knox is under arrest. It is said that these fellows had previously visited the saloon of John Grant, where, being refused admittance, they fired several pistol shots through the door.

Manchester & Keene R. R. Co.

KEENE, Nov. 20. A suit has been brought against the city for $140,000, being a gratuity voted by the city several years ago to the Manchester & Keene R. R. Co.

A Maine Sailor Probably Murdered.

PORTSMOUTH, N. H., Nov. 21. The body of Wm. C. Conery, seaman of the schooner Joy Clark, was found in the mud at the foot of Judick's wharf this morning. The vessel arrived in this port Saturday afternoon, to load apples for Charlotte town, P. E. The last seen of Conery alive was at 7 o'clock that night on the wharf. The face shows cuts with a severe gash on the head. He was 33 years of age, unmarried and belonged in Bluehill, Maine. The matter will be thoroughly investigated.

POLITICAL.

WARREN, Ohio, Nov. 20. E. B. Taylor nominated by the Republicans of the 19th district to the unexpired term in Congress of Gen. Garfield, was elected to Congress in the October election.

The Official Vote of Illinois.

Mayoralty of Providence, R. I.

PROVIDENCE, Nov. 20. The Republican city convention, this afternoon nominated William S. Hayward for Mayor. Resolutions were unanimously passed recognizing the great services of Mayor Doyle during the past sixteen years. He declined to be a candidate for re-election.

The Democrats to-night unanimously nominated Hon Elisha C. Mowry for the Mayoralty.

Minnesota's Majority.

ST. PAUL, Nov. 21. The official canvass complete of the State makes Garfield's majority 40,588.

STELLARTON MINES.

Preparing for Future Operations.

STELLARTON, N. S., Nov. 20. After consultation to-day an opening was made in the Cage pit, when it was found that the air took a natural course, going into the mine and returning at the furnace. It was then decided to let it course around until Monday morning, when if the aspect appears not changed it is proposed to open out the cage pit further. From present indications it is believed the cage pit is all right, and that the fire has not extended to the north side of the works. There is no change at the fan pit, and everything else is quiet.

SOUTHERN INTOLERANCE.

Resisting an Officer with Attempts to Assassinate.

A PRISONER IN HIS OWN HOUSE.

The Officer Instructed to Defend Himself at every Hazard.

WASHINGTON, Nov. 20. Internal Revenue Collector Marks, at New Orleans, has forwarded Commissioner Raum a letter received from Deputy Collector B. H. Lanier, who has charge of the upper parishes of Louisiana bordering on the river. The letter is dated Lake Providence, Nov. 10th and says: In consequence of my candidature for Congress upon the Republican ticket, the spirit of intolerance which prevails here and the attempts which have been made to assassinate me, and assassinate Dr. W. B. Jones, the editor of my paper, because of his active support of Garfield's election and myself, render it utterly impossible for me properly to discharge my duties as Deputy Collector of Internal Revenue for this district.

In addition, I have to inform you that I am at this moment a prisoner in my own house, and dare not go out for fear of immediate assassination. I find it also necessary to leave this collection district at least for the present, to secure my personal safety. Please advise me what to do in the premises.

Yours very truly,
B. H. LANIER.

In reply to the letter Gen. Raum this afternoon telegraphed Collector Marks, at New Orleans, as follows: "I do not intend to allow our officers to be intimidated and driven from their districts. Employ five competent, courageous men, and arm them well, to accompany Deputy Collector Lanier in policing his division and enforcing the law. Instruct them to defend themselves at every hazard. I will furnish you breech-loading carbines if necessary."

THE TROUBLE IN IRELAND.

Agitation Increasing All Over the Country.

Tenants Becoming More Impudent.

LONDON, Nov. 20. A despatch to the Times from Dublin says: Accounts from various parts of the country, by agents for property, represent the state of the country as still more disturbed and demoralized. The combination against the payment of rents is extending into the districts hitherto peaceable, and the terrorism which follows closely in the wake of the Land League is steadily breaking down the opposition of the law-abiding classes. Tenants who do not pretend to be unable to pay their rents meet their landlords defiantly and refuse to pay more than Griffith's valuation, and in some cases decline to pay at all, or demand an arbitrary abatement.

Thomas Power O'Connor, at a public meeting in Galway said that when the objects of the Land League shall have been attained, the Irish people will have a more noble course in view, to wrench themselves from the rule of England.

Proposition to Suspend the Habeas Corpus Act.

NEW YORK, Nov. 21 The World's cable from London says the present position of members of the government in reference to the Irish question, is this: Lord Selbourne, Lord Highchancellor, Earl Kimbesly, Secretary for Colonies, Earl Spencer, Lord President of the Council, and Duke of Argyle, Lord of the Privy Seal, are agreed in considering that the time has come for the suspension of the habeas corpus act. Chief Secretary for Ireland Forster, is also of their opinion, and has earnestly pressed the adoption of this vigorous measure. On the other hand, this proposition is as energetically opposed by the representatives of the radical element; Bright, Chancellor of the Duchy of Lancaster, and Joseph Chamberlain, President of the Board of Trade. It has been decided by the Cabinet to do nothing whatever until after Parliament meets.

America's Interest in the Irish Movement.

CORK, Nov 21. Michael Doutt has returned from his tour in the United States. He brings a tender of freedom of Chicago to Parnell. Doutt says he was everywhere well received. Public opinion in America was undoubtedly favorable to the Irish land movement. Americans needed education on the subject, and hence the necessity of having a representative of the League in America. It was of the greatest importance to the movement that the Americans should be convinced that the Land League did not give the slightest encouragement to outrages.

NEW YORK CITY

Discharge of a Suspected Bank Robber—His Re-arrest.

NEW YORK, Nov. 20. Charles Carson, alias Hayward, arrested Monday, charged with being concerned in the Middletown (Conn.) bank robbery, was discharged to-day, in Jefferson Market Police Court. Judge Smith remarked that he had done all in his power to help the Middletown authorities by holding the prisoner for a week, and as they did not come to claim him, he felt justified in discharging him. Immediately on leaving the Court, Carson was arrested by the police, and taken to police headquarters.

President Hayes

and party left this afternoon for Washington.

Honors to Grant—Speech by the General.

The Lotus Club entertained Gen. Grant at a dinner to-night and a reception was given in his honor. Whitelaw Reid presided, and in a speech introducing the General, advocated making life Senators of ex-Presidents. General Grant said: I feel embarrassed in being called upon to respond to the complimentary remarks of your President. I do not know what to say. They are not deserved, and yet I do not want to convince you they are not. If I stand here five minutes I will convince you I am not the speaker your President speaks of. In regard to the future I am entirely satisfied as I am to-day. I am sure that from the American people I have every reason to be satisfied with what I have received. I hope to have many years of life as I am in vigorous health; 48 years of age. I have been so for the last ten years, (laughter) and if I ever could render any service to my country, I would do so. At 48 I am behind the age of volunteering, and if ever wanted I shall have to be pressed into service." Speeches were also made by Mayor Cooper, Gov. Cornell and others.

Gen. Grant to-day was elected honorary member of the Middlesex Club.

Shipwrecked Sailors.

A Halifax special says: Captain Hatfield while shooting in the southern side of Crowley's Island, at the entrance of Chebegue harbor, picked up on the beach a bottle containing a small piece of paper on which the following was written:— "May, 1880, north lat. 42, 44, west long. 49. 47, bark Jane, Glasgow, in a fog; sprung a leak three days ago; sinking fast; all the crew work day and night at the pumps. Yesterday one boat was gone; the crew of eleven men are taking to the only boat left. God have mercy on us.

(Signed) HENRY LYNCH, Master.

An Inhuman Husband.

NEW YORK, Nov. 21. Henry Van Asbern, an employe at the Delaware and Hudson Coal Co., beat his wife to death this morning at West Hoboken.

MASSACHUSETTS.

Large Consolidation of Railroads.

BOSTON, Nov. 20. An alliance has been consummated of the interests of the New York Central, Lake Atlantic and Pacific, Chicago, Burlington, Quincy, Atchison, Topeka and Santa Fe roads, forming a community of interests in opposition to the Gould roads, and accomplishing one of the most gigantic combinations ever attempted. This statement is not authoritative but is considered most reliable.

Reform School Boys Escape.

Eight boys employed in the shoe shop at the Westboro Reform School escaped this afternoon.

Damage to a Maine Vessel.

CHATHAM, Nov. 21. The brig Charles Dennis, of Richmond, Maine, from Baltimore for Boston, with a cargo of coal, came ashore on Chatham beach this morning. She lost one anchor, and had been got off during the day by wreckers from North Chatham.

WASHINGTON.

Fast Mail Service for the South.

WASHINGTON, Nov. 20. During the last session of Congress, Supt. Thompson of the railway mail service, wrote a letter to the Postmaster General, advocating an additional appropriation for the Southern fast mail service, which letter was transmitted to Congress and an appropriation made. Prior to the present time it has been impossible to make arrangements with Southern lines to put it in operation There was a meeting to-day in this city of the Southern managers, at which the arrangement was completed and it was agreed to put it into effect on the 28th inst. This arrangement will be of immense value to Southern traders, besides with the fast train connections, will give the South a double daily fast mail service.

Scull Race.

Final arrangements were made this evening for a professional scull race of three miles over the Potomac course for Thanksgiving day. Davis, Kennedy, Lee and Plaisted have entered. Negotiations have also been begun for a championship race between Hanlon, Ross and Laycock.

The National Grange.

WASHINGTON, Nov. 20. At the session of the National Grange, an invitation from the District Grange of Northern Virginia, to attend the session of the latter next Wednesday evening, was accepted. Masters of State Granges were called upon for reports of their respective orders, and complied. They reported especially with regard to the study of the elementary principles of agriculture having been adopted in public schools, and their statements generally were that this study has been made a feature in the schools with success. Mr. Hilborn, Master of the Dominion Grange, Canada, delivered an address, showing the progress of the order. He said the grange had progressed steadily from year to year, and the new Dominion Government recognized it as a power in the land, and sought to advance its interests. A number of resolutions relating to specific features of the grange were introduced.

Inauguration Ceremonies.

The joint committee of thirty appointed to harmonize opposing factions of Republican associations relative to arrangements for the inaugural ceremonies of General Garfield, met to-night and organized by electing officers, and adjourned to meet Wednesday evening, when the necessary sub-committees will be appointed.

DUST TO DUST.

Obsequies of Governor Williams.

INDIANAPOLIS, Ind., Nov. 21. A meeting of the State officers and prominent citizens was held last night and arrangements perfected for the obsequies of Governor Williams. The remains will lie in state in the Court House from 11 A. M. until 5 P. M., Monday, and be taken to Vincennes, Tuesday morning, and lie in state at that place during the afternoon, and then be taken to the Governor's late residence, near Wheatland, Tuesday night. The funeral takes place Wednesday. A telegram was received to-day from President Hayes expressing sympathy and regrets that official duties prevent him attending.

HEAVY SNOW STORMS.

An Old-Fashioned Snow Storm in New Hampshire.

HANOVER, Nov. 20. Snow began falling here for the first time this season, at 8 o'clock this morning. The storm has steadily increased to this hour, when all signs indicate a real old-fashioned snow storm.

MILFORD, Pa., Nov. 20. A heavy snow storm prevails; the ground is covered and it is snowing hard yet.

SCRANTON, Nov. 20. Heavy snow has fallen to-day, and the ground is covered.

BRUSSELL, Ont., Nov. 21. Snow has fallen to the depth of two feet since noon yesterday. The roads are badly blocked.

CONDENSED DESPATCHES.

Judge Crosby, of Lowell, Mass., held an inquest Saturday forenoon on the death of Daniel Conway, who was killed on the B. & M. R. R., a few days ago. No blame is attached to the corporation.

A young man named McDonald was on Saturday accidently shot through the heart at Forrester's Falls, Can., while scuffling with some friends with a loaded gun in his possession.

Andrew J. Reid, a New York broker, who has been missing several weeks, was found partially demented, and wandering in the streets of Tarrytown.

Hiram Fuller, formerly editor of the Evening Mirror, of New York city, died in Paris, Saturday.

Owing to the storm the unveiling of the statue to Alexander Hamilton in Central Park, New York, which was to have taken place Saturday afternoon, has been postponed without date. THE STATE PRISON. Governor Davis, who went to Augusta on last evening's train, informed us that he has decided to appoint Gustavus S. Bean, Esq., of this city, as Warden of the State Prison. Mr Bean is well known and esteemed in this section as a citizen of excellent character, whose experience as a deputy sheriff should be useful in the new position. He has been a member of our city government and of our school board, is an earnest Republican, and was strongly supported at our last County Convention for the Republican nomination for Sheriff. He will be warmly congratulated by his many friends in this vicinity.

RAILWAY SNOW PLOUGHS. Mr. Thos. H. Adams has now in course of construction at his factory, Old Fort, Carleton, and within a few days of completion, two snow ploughs, known as the "Stackhouse patient." One of these is intended for the I. C. Railway, and the other for the St. John and Maine Railway. They are considered by good judges to be superior to any other ploughs in use, being especially effective in heavy drifts, and not surpassed by any plough at present in use in ordinary snow storms. It is quite probable that ploughs of this style will find favor on the Pacific Railway, and indeed on all roads seriously affected by snow storms.

BUFFALO BILL. The members of the Buffalo Bill Combination arrived in this city yesterday afternoon at one o'clock, by a special steamer from Rockland, and are now stopping at the Exchange. This evening they will appear at Norombega Hall in the border drama, "Prairie Waif," and will undoubtedly be greeted by an immense audience. The advance sale of tickets has been very large. The play is full of thrilling situations, without the introduction of the blood and thunder business, with which such pieces usually abound. The street parade will occur this morning at eleven o'clock, starting from Norombega Hall.

CORINNA ITEMS. Our correspondent writes: A gang of thieves have been committing depredations in Stetson and neighborhood for a long time. They have taken all kinds of property that they could lay their hands upon. There was a report in Corinna that for some reason one of their number had turned State's evidence, and let the whole thing out. It is said that his accomplices have fled. If the report as above proves to be well founded, more particulars will be forthcoming, when I will write about the affair more fully and definitely.——J. H. Burgess, Esq., is moving into the Dr. Archer house in Corinna, which would seem to indicate that he intends to remain in the town for the present. He tells me that his law business has been increasing regularly for a number of months, and that he has no reason to be dissatisfied with the patronage that he receives. It will be recollected that Mr. Burgess was for a number of years the efficient Clerk of Courts in this county.

JUDGE CLIFFORD RAPIDLY RECOVERING. The somewhat critical condition of the health of Mr. Justice Clifford of the United States Supreme Court has caused some uneasiness and alarm among his numerous friends in New England as well as throughout the country, and all will be gratified to hear, says a dispatch to the Boston *Post*, that the reports which have lately appeared as to his mental and physical condition are not true. The Judge is steadily improving in bodily health, and his physicians confidently state that there is no reason to fear any relapse. His speech, which was considerably affected, is fast returning, and sufficient time only is necessary for a recovery in this particular. All physicians who have any knowledge of the condition of the venerable Justice feel justified in thinking that he will soon fully recover. His greatly improved condition during the past few days gives assurance that he will at an early day resume his duties on the bench.

THE ICE BUSINESS. It is highly important that some measures should be taken to keep the river clear of all drift stuff from this time out. For a number of days the river has been literally covered with this stuff, and those of our citizens who intend to engage in the ice business, are justly alarmed and indignant about it. The ice business promises to become an important industry on the Penobscot, and every effort should be made to encourage those who are engaged in it. Last season some $20,000 or $30,000 were distributed here by the icemen, and if everything is favorable this year another large amount will be paid out; but should the river close while this drift stuff is floating on the water, it would ruin the ice crop. It has also been suggested that it would be well to guard against anchor-ice by hanging a boom at Sunkhaze. This could be done at a small expense, and might be the means of preventing serious danger to the ice crop.

THE HARBOR. There are now about forty vessels in port, all loading briskly, the stevedores working nights and even Sundays. The clearances for the past three days have aggregated about fifty loaded vessels, which has greatly diminished the fleet in port, and makes things look a little sober along the wharves. The brig Harry Stewart left yesterday for Bermuda and Turks Island, and a large number of lumber-laden coasters tow out every tide. The extreme cold weather of yesterday was too much for the eddies and jogs, and they were skimmed over with ice from half an inch to an inch in thickness. The Kenduskeag was also skimmed over clear across near the railroad bridge, and ice was forming early in the afternoon. In event of dry weather with temperature like that of yesterday, we shall soon see a glassy sheet of ice on the Penobscot.

AGRICULTURAL MEETINGS. The Maine Board of Agriculture held a series of Farmers' Institutes in Washington county last week. The first was held at Pembroke, Tuesday, Nov. 16. On account of the storm the attendance was small. Wednesday evening the 17th, the Dennysville "Farmers' Ring" held a meeting at Dennysville at which President Gowell and Secretary Gilbert of the board assisted in the discussions. Thursday the board met at Machias a few of the farmers of the West Washington Agricultural Society for the purpose of learning something of the agriculture of the section represented by them, and also to discuss matters pertaining to this business. At the annual meeting of the Washington County Agriculture Society held at Pembroke, Wednesday, Nov. 17th, the following officers were chosen: President W. S. Wilder, Pembroke; Vice Presidents, C. W. Hersey, Pembroke; Caleb Gilman, Meddybumps; M. P. Pettengill, Pembroke; Treasurer, Peter E. Vose, Dennysville; Secretary, H. F. Porter, Pembroke; Trustees, Benj. Lincoln, Dennysville; Lyman Smith, Charlotte; John Foster, Pembroke; John Morgan, Pembroke; A. R. Lincoln and M. D. Dennysville, members of State Board of Agriculture.

WHEELBARROW WAGER. The wager lost by Mr. Hobart, of Somerville, a Democrat, obliges him to wheel a barrow loaded with a two hundred pound weight, to Portland within four years. The present is the fourth wager of the kind which he has made. The first was made in 1864 with Mr. Wright, the well known oyster dealer, the loser to wheel four hundred pounds from Providence to Boston. Mr. Hobart favored Gen. McClellan and Mr. Wright bet on Lincoln. Mr. Hobart was the loser, and before fulfilling the conditions of the wager received, from the National Lancers the gift of a wheelbarrow having two wheels. Upon this vehicle he brought four hundred pounds of oysters from Providence to Boston. The number of oysters was upward of seven hundred, and they were sold for a dollar each. There was a dispute as to whether the wheelbarrow used was really a wheelbarrow, as the term was understood, and one result of Mr. Hobart's feat was that a number of bets were made, dependent upon the settlement of the question as to whether he had really won his wager. The matter being left to referees, was decided in his favor, but in his later wagers he has always stipulated that the vehicle used should be the one used in 1864. A few years ago he lost his second wager and was obliged to wheel a load from Lexington to Somerville. More recently he got upon the winning side and had the satisfaction of seeing Mr. Dexter C. Stone trundle the wheelbarrow from Somerville to Boston. In regard to the present wager he says he does not mind the hardship of the task that is before him, so much as he does the fact that Hancock is not to be President.

RIVERSIDE FARM.

Visit of Gov. Davis and Other State Officials to East Baldwin.

Friday, Gov. Davis and party visited Riverside Farm at East Baldwin, on invitation of its proprietor, C. P. Mattocks, Esq. The weather was delightful and the ride over the Ogdensburg and the long drive over the farm that Mr. Mattocks gave his visitors, was much enjoyed by them. The party consisted of His Excellency, Gov. Davis, with his Council, Hon. Frederic Robie of Gorham, Hon. Lewis Barker of Bangor, Hon. J. S. Hinckley of Bluehill, Hon. William Wilson of Hallowell, Hon. R. L. Bowers of Saco, and Hon. J. G. Pendleton of Searsport; Secretary of State S. J. Chadbourne, of Augusta; Adjutant General G. L. Beal of Norway; Gen. C. W. Tilden of Hallowell; ex-Judge R. P. Tapley of Saco; Maj. S. J. Gallagher, of Augusta, Col. A. M. Benson of Portland, and Senators-elect Joseph A. Locke and Tobias Lord, Jr.

After inspecting the evaporated apple factory of Messrs. Perry & Flint, the party took a drive over the farm, and the places of interest were pointed out and discussed. The whole forenoon was spent in viewing the large stock of choice breeds of cattle, sheep and poultry, and examining the many improvements Mr. Mattocks has introduced.

His large flock of Cotswold sheep, herd of Jerseys, and swine, and many varieties of turkeys, ducks and Brahma hens, for which the farm is famous, called forth many and admiring remarks from his visitors. The exhibition of the shepherd dog, imported from Scotland, was a novel and interesting feature. The dog was sent after a flock of sheep that was completely out of sight, and in a few minutes he returned, bringing the whole flock. The animal would then drive them to any part of the field named by his master.

A pit of Shilo was opened in honor of the visitors, and the cattle ate it with a relish that showed that the fodder was well preserved. After examining the many points of interest in and about the farm buildings, the company repaired to the house, where a bountiful collation was awaiting.

The party then spent an hour socially, and returned to this city on the early afternoon train, where they took the first train for their several homes.—*Portland Press.*

A NOTED CRIMINAL AGAIN SECURED.

How the Burglar Who Escaped from Alfred Jail was Captured.

The telegraph, Wednesday morning, announced in brief the capture in New York of William Nelson, who broke out of Alfred Jail, Oct. 26. The particulars of the affair are as follows: It will be remembered that Nelson and a companion in crime named George O'Neill were the leaders of a gang of desperate thieves, who, during last spring and the early months of the summer, terrorized the inhabitants of Biddeford and the neighborhood by their bold crimes. Burglaries by masked men became of almost nightly occurrence, and the staid people living in detached residences were almost afraid to retire to rest, fearing that they would be murdered in their beds. All efforts by the local police authorities to discover the gang of thieves proved futile, and finally the people organized a Vigilance Committee, and, aided by the sheriff of the county and the local military authorities, started in real earnest to hunt up the burglars. On July 1, Nelson and O'Neill were captured, and after a long examination were committed to the York county jail at Alfred to await trial. On Oct. 26, they escaped from prison by tunneling under the walls of the jail. After their flight, the sheriff of York county sent broadcast throughout the country circulars describing the fugitives and offering a reward for their arrest. One of these circulars recently fell into the hands of Detective Schmittberger, of New York, and knowing the haunts of the fugitives he kept a sharp lookout for them.

On Monday evening, while walking down Sixth avenue, Schmittberger saw Nelson standing on the corner of Thirty-first street, surrounded by a crowd of his friends. Schmittberger elbowed his way through the crowd, and putting his hand on Nelson's shoulder, told him he was a prisoner and requested him to accompany him to the station-house. Nelson shook off the officer's grasp, and jumping back a few steps, pulled out a revolver from his overcoat pocket, and levelled it at the officer. Before he could fire, however, Schmittberger struck him a blow in the face, felling him to the pavement. He then jumped on him and wrenched the pistol from his grasp. The friends of the prisoner closed about the struggling pair, and the detective was in a perilous position. Patrolman Gamble, of the Twenty-ninth precinct, rushed to the spot, and driving the crowd away, assisted in handcuffing the prisoner. He was taken to the West Thirtieth street police station, and on searching him there was found in his possession a new six-chambered revolver marked "J. M. Martin, New Haven, Conn., 1873," a valuable gold watch and chain, with a ten dollar gold piece pendent from the chain, a plain gold ring set with five small diamonds, an onyx ring and $119 in cash. The case of the watch was marked "J. T. S. & Co., 1877, warranted 18 carat." When he was arraigned in court a number of his associates were present and listened eagerly to the proceedings. The detective informed the magistrate that he had telegraphed to the sheriff of York county, but had not received a reply, and the prisoner was accordingly remanded until Wednesday.

Interesting to Lawyers.

At the suggestion of P. H. Longfellow, Esq., Clerk of Courts for Washington county, Postmaster Curtis of Machias submitted a blank writ, signed and sealed by the clerk, to the Post Office Department at Washington, for classification, and received the following answer:

Post Office Department, Office of the First Assistant Postmaster General, Washington, Oct. 22, 1880: Respectfully returned to the postmaster at Machias, Me., and his attention called to section 232, pages 81 and 82, Postal Laws and Regulations, Edition of 1879, and to Order No. 12, page 570, United States Official Postal Guide, for January, 1880, which will give him the desired information. The blank may be sent in its present form, *or it may be filled out in writing with matter which is the appropriate filling thereof* without subjecting it to a higher rate of postage than for third-class matter. James H. Marr, Acting First Assistant Postmaster-General.

We understand that such blanks are sent through the mails quite extensively, and that letter postage has heretofore been paid on them. This decision must necessarily largely diminish the postage account of the legal fraternity.

A WONDERFUL CURE.
A CONSUMPTIVE AT DEATH'S DOOR BRO'T TO LIFE.

The following statement of William J. Coughlin, of Sommerville, Mass., in relation to his restoration to health by HALL'S BALSAM FOR THE LUNGS, is so remarkable that we beg to ask for it the attention of our readers and their friends who have WEAK LUNGS or may be troubled with coughs, colds, or other diseases of the THROAT AND CHEST. Mr. Coughlin says: "In the fall of 1876 I was taken with a VIOLENT BLEEDING OF THE LUNGS followed by a severe and painful cough which gave me no rest, either day or night. I soon began to lose my appetite and lost flesh considerably. I was compelled shortly to quit work, and was so weak at one time that I could not leave my bed unless I was assisted. In the summer of 1877 I was admitted to the City Hospital. While there one of the doctors said I had A HOLE IN MY LEFT LUNG AS BIG AS A HALF DOLLAR. I expended over a hundred dollars in doctors and medicines. I went to the country on several occasions, but I could get no help. I still continued to fail until my friends gave me up. I was so far gone at one time a report went around that I was dead. I was discouraged and gave up hope, but a friend told me of DR. WM. HALL'S BALSAM FOR THE LUNGS. I laughed at my friends, thinking at that time that my case was incurable, but they pleaded so earnestly I got a bottle to satisfy them, thinking it would do me no good, when to my surprise and gratification, I SOON COMMENCED TO FEEL BETTER. My spirit rose, my hope, once dead, began to revive, and to-day I feel in better spirits than I have the past three years.

"I write this hoping you will publish it, so that every one afflicted with DISEASED LUNGS will be induced to take HALL'S BALSAM FOR THE LUNGS, and be convinced that CONSUMPTION CAN BE CURED. I have taken two bottles and can *positively* say that it has done more good than all the other medicines I have taken since my sickness. My cough has almost entirely disappeared and I shall be able to go to work by the 1st of June."

A WORLD OF GOOD.

One of the most popular medicines now before the American public, is Hop Bitters. You see it everywhere. People take it with good effect. It builds them up. It is not as pleasant to the taste as some other Bitters as it is not a whiskey drink. It is more like the old fashioned boneset tea that has done a world of good. If you don't feel just right try Hop Bitters.—*Nunda News.*

HUMBUGGED AGAIN.

I saw so much said about the merits of Hop Bitters, and my wife who was always doctoring, and never well, teased me so urgently to get her some, I concluded to be humbugged again; and I am glad I did, for in less than two months use of the Bitters my wife was cured and she has remained so for eighteen months since. I like such humbugging.—H. T., St. Paul.—*Pioneer Press.*

Meets the requirements of the national medical philosophy which at present prevails. It is a perfectly pure vegetable remedy, embracing the three important properties of a preventive, a tonic, and an alterative. It fortifies the body against disease, invigorates and revitalizes the torpid stomach and liver, and effects a salutary change in the entire system, when in a morbid condition.

All letters are delivered free by carriers when addressed to street and number. People should inform their correspondents of above and have their letters addressed accordingly.

Persons leaving their address at the General Delivery can also have their letters sent, but it is much more convenient to have the street and number on, and they will be delivered earlier than if the same is put on at the office. Carriers make two deliveries daily the first trip supplying the extremes of their routes.

Collections are made morning and evening in season for important mails.

Holidays the Carrier's Window will be open for the delivery of letters from 8½ to 9½ A M, and from 7½ to 8½ P M. Sundays from 8½ to 9½ A M.

Any irregularities in the Carriers' department should be reported to the office.

ENVELOPES

No additional charge will be made for printing the name and request to return across the left hand upper corner of the envelopes furnished by the Post Office Department (samples of which may be seen at the Cashier's window,) when ordered in lots of not less than 500.

A request for the return of a letter to the writer, if unclaimed within thirty days or less, written or printed with the writer's name, post office and State across the left end of the envelope, on the face side, will be complied with.

☞ The public are earnestly recommended to procure stamped envelopes with printed return request as the expense is less, and letters thus enclosed, if not delivered to the person addressed are returned to the writer free of charge.

First class envelopes of above furnished at $32.20 per thousand.

Stamps cut from Stamped Envelopes cannot be used to prepay postage. The use of such Stamps is punishable by a fine of fifty dollars.

Stamped Envelopes spoiled in directing, are redeemed at this office.
